UNIV 100 Reflection Paper on your Research Process

Now that you have had an opportunity to gain important information literacy skills, access and use relevant library resources, and conduct research for your topic, please reflect on what you have learned and address the following prompts. Please type your responses and submit.

1. What databases or search engines did you use to find information? (You may include books, databases (like Academic Search Premier or ProQuest Newspapers), periodicals, Internet search engines, Websites, audiovisual sources, and other materials.)

2. What search terms did you use and did you have to revise or change them?

3. Did you return to the databases/search engines after you initial searches to find more or different information?

4. Were there any search techniques or strategies that were particularly useful? Please describe.

5. How did you go about deciding which sources (articles, books, etc.) to use in your paper?

6. What have you learned from conducting research for this paper/project that you will use in the future?
